---

YooHooFocus is becoming a developed postproduction team which is pursuing innovation and perfect technology realization in the industry in China. Since the establishment in 1997, YooHooFocus was focused on the AD productions originally, and then transformed into the investment of the feature films and the productions and R&D of visual effects gradually. Since 2006, we've branched in many cultural cities and film bases in China, such as Beijing, Shanghai, Shandong, and Zhejiang etc. We are making special effects creativities and productions for more than 100 films and televisions every year, and play an important role of the Special Effects area in China.
